

# Happy Birthday!

In my classroom, each child creates a page for a birthday book for the birthday kid.

The birthday kid completes the cover and the "birthday word scramble" located for download on my Teacher Files page.

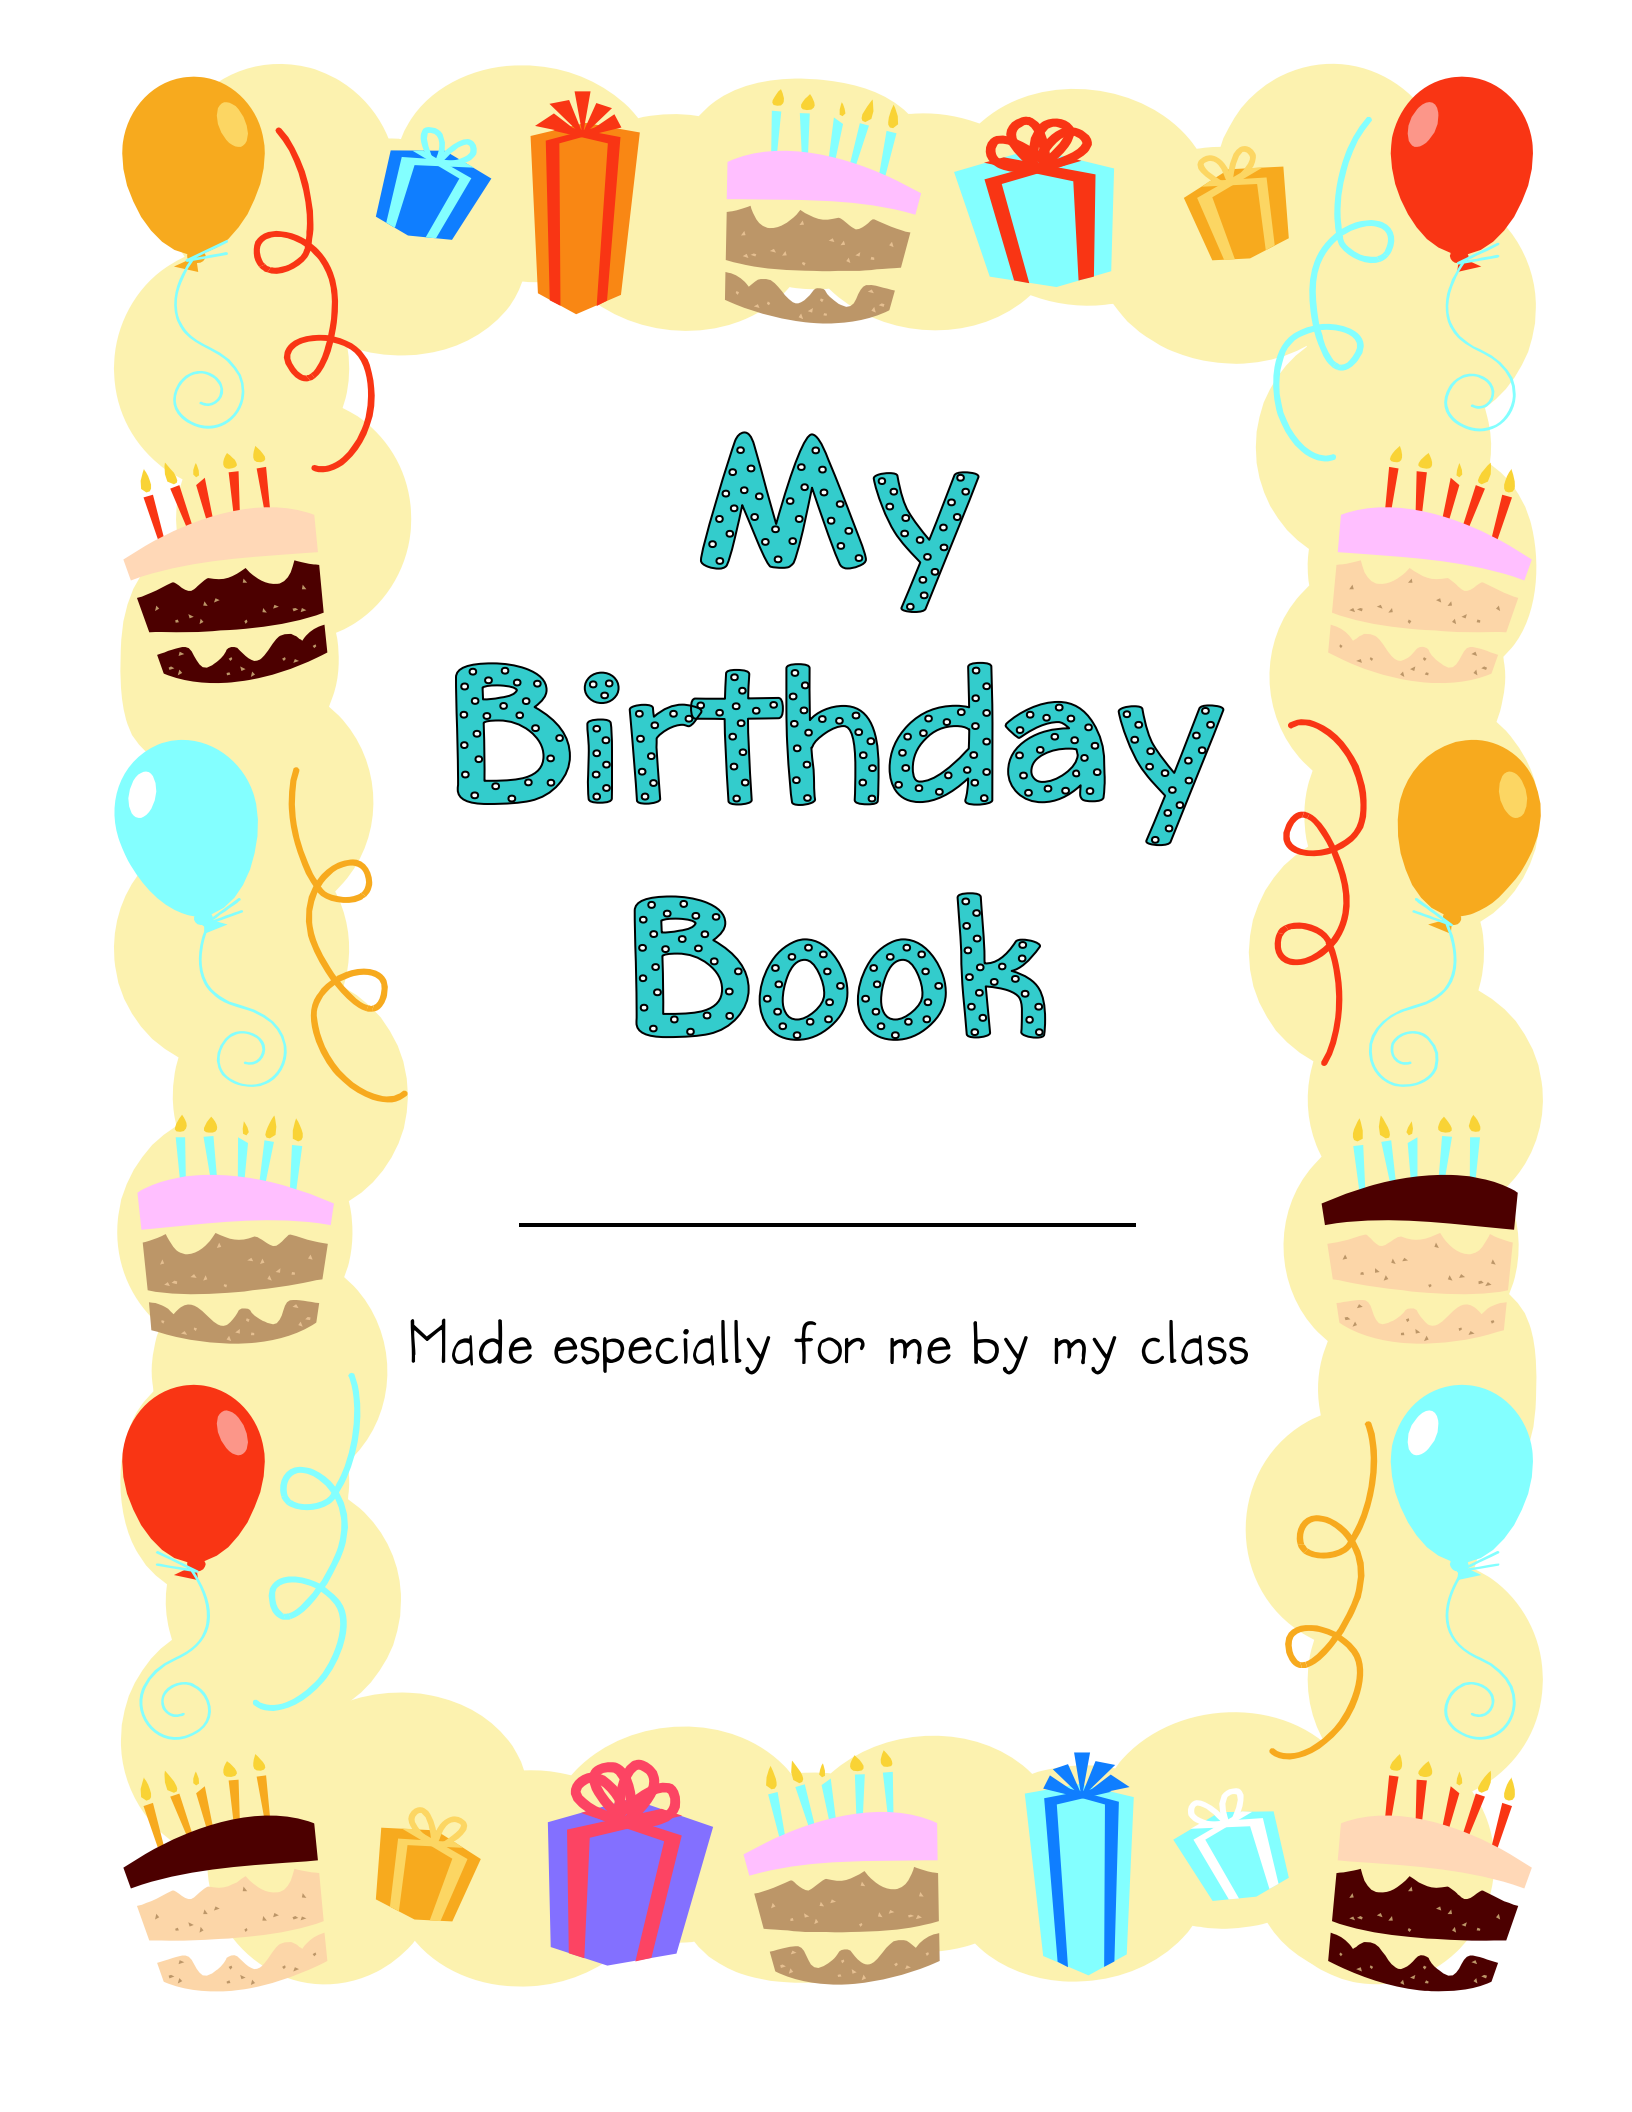

While they work on their scramble, the rest of the class is coloring and writing a message for the birthday kid. I do it too!

During lunch, I bind all the pages into a book and present it to the birthday kid.

It is a favorite and very "looked forward to" gift for my students!

I know yours will love it too!
