

Directions for  
 Around the World  
Scrapbook

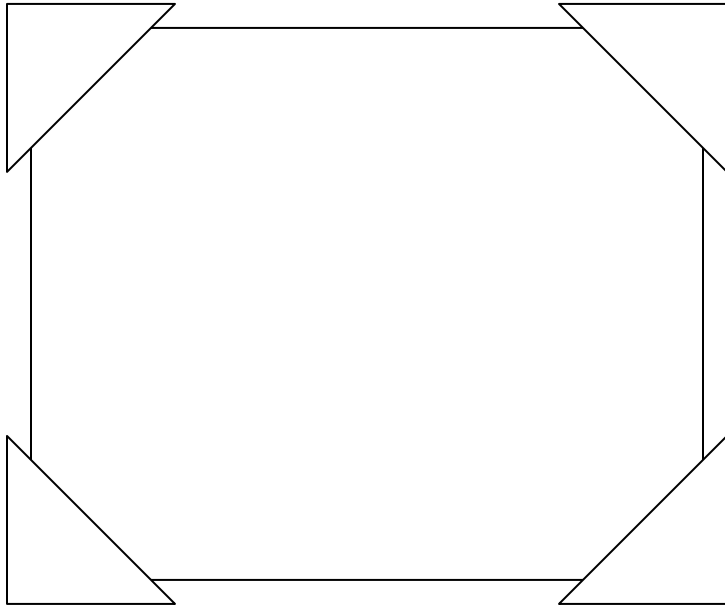

I have designed this scrapbook to be used with my Christmas Around the World unit. The order of pages coincides with the order that we travel as my class makes their way around the world!

If you'd like to use this with your class, feel free! Here are the directions for printing on two pages:

1. Print pages 1 and 2 back-to-back.
2. Print pages 3 and 4 back-to-back.
3. Stack pages on top of one another.
4. Fold and staple!

Now your students have a scrapbook where they can write about their travels around the world and draw a picture to connect to their writing!

Enjoy!
